

# BWT bestcup

PREMIUM

In-line tank filter for water optimisation for compact fully automatic coffee machines

## Gourmet coffee water to meet the highest requirements

Coffee water optimised with BWT bestcup PREMIUM filters ensures exceptional coffee enjoyment and protects your valuable machine technology from damage caused by limescale and gypsum deposits. BWT bestcup PREMIUM filters fit onto to the machine's water inlet with a special connector. Using the same unique BWT water optimisation technology we use for professional machines the BWT bestcup PREMIUM in-tank cartridge reduces levels of carbonate hardness (limescale) and calcium sulphate (gypsum), providing clear, particle-free water with no foreign tastes or flavours

**Additionally, patented BWT magnesium technology mineralises your water with extra flavour-carrying magnesium for optimum coffee taste and a perfect crema.**

The professional technology inside a BWT bestcup is simple to use and provides total protection for your machine with maximum coffee pleasure for connoisseurs and espresso lovers alike.

## BWT bestcup PREMIUM water filter: optimum coffee water thanks to top technology and professional 4-level filtration

BWT magnesium technology for the professional requirements of coffee connoisseurs and amateur baristas:

- Protects your coffee machine from limescale and gypsum deposits.  
▶ This extends the operating life of your high-quality coffee machine technology.
- Optimises your coffee water with magnesium  
▶ This always guarantees the optimum coffee aroma and the perfect crema for satisfied connoisseurs

## Maximum performance for any requirement

BWT bestcup PREMIUM	Quality range	Cup volume / cups per cartridge		
		35 ml	70 ml	150 ml
BWT bestcup PREMIUM T Filter capacity at 14 °dTH = 50 litres	A (<8 °dTH)	2,381	1,190	555
	B (8–14 °dTH)	1,428	714	333
	C (>14 °dTH)	1,020	510	238
Filter cartridge order no.		KS30100		
BWT bestcup PREMIUM S Filter capacity at 14 °dTH = 50 litres	A (<8 °dTH)	2,381	1,190	555
	B (8–14 °dTH)	1,428	714	333
	C (>14 °dTH)	1,020	510	238
Filter cartridge order no.		KS32100		
BWT bestcup PREMIUM M Filter capacity at 14 °dTH = 100 litres	A (<8 °dTH)	4,762	2,381	1,111
	B (8–14 °dTH)	2,857	1,429	667
	C (>14 °dTH)	2,041	1,020	476
Filter cartridge order no.		KS34100		
BWT bestcup PREMIUM L Filter capacity at 14 °dTH = 200 litres	A (<8 °dTH)	9,524	4,762	2,222
	B (8–14 °dTH)	5,714	2,857	1,333
	C (>14 °dTH)	4,082	2,041	952
Filter cartridge order no.		KS36100		

°dTH = German Total Hardness

## Simple use in the water tank

BWT bestcup filter cartridges **1** can be used easily in the tanks of a wide range of coffee and espresso machine via an adapter **2**.

A range of adapters are available e.g. for hose **3** or direct connection **4**. The water is filtered directly as required (making coffee) and is available right away for your fresh coffee.

Ask your specialist dealer or visit [www.bwt-wam.com](http://www.bwt-wam.com) for more information.

## Simple limescale protection for smaller jug-fill bean to cup coffee machines – BWT bestsave limescale-reducing pads

The new BWT bestsave limescale protection pad provides the perfect basic limescale protection for all hot drinks machines with an integrated water tank. Thus, BWT bestsave – with its different product sizes – is perfect for use in practically all coffee machines, fully automatic coffee machines and compact vending machines. Whether it's used at an office coffee station, in catering, in a bakery or in small cafes, BWT bestsave is always the simplest and most efficient solution for the optimum quality in the cup and the mug.

BWT bestsave pad made from non-woven fabric; high performance ion exchanger with integrated active charcoal filter and hygiene protection
